PROFILE

Currently a Master's student in Information Systems Security at ISG Tunis, with a strong foundation in full-stack development. I am actively transitioning toward a specialization in cybersecurity, driven by my interest in securing digital systems and infrastructures. I bring a developer's mindset to the field of security, and I am eager to contribute to secure, efficient, and scalable solutions within a professional environment.

EDUCATION

- **Institut Supérieur de Gestion** — Tunis, Tunisia
  Master's in Information Systems Security — *2024–Present*
- **Higher School of Digital Economy** — Tunis, Tunisia
  Bachelor's in Management Information Systems — *2021–2024*
- **Honors**: Very Good
- **Lycée Rue de Russie** — Tunis, Tunisia
  High School Diploma in Computer Science — *2020–2021*
- **Honors**: Fairly Good

SKILLS

- **Operating Systems**: Linux, Windows
- **Tools & Technologies**: Metasploit, Kali Linux, Wireshark, Docker, Git, MySQL, Oracle, VirtualBox
- **Programming Languages**: Python, JavaScript, C#, Java, C++, PHP
- **Frameworks**: .NET, Angular, Bootstrap
- **Soft Skills**: Problem Solving, Time Management, Team Collaboration, Public Speaking

CYBERSECURITY FOCUS

- **Practical Experience**: Performed penetration testing using Metasploit in a custom home lab environment. Successfully exploited and documented vulnerabilities on the "Netspace" vulnerable machine.
- **Hands-On Tools**: Metasploit, Kali Linux, Wireshark, Nmap, VirtualBox, Burp Suite
- **Current Learning Topics**: Network Security, Vulnerability Management, Secure Development Lifecycle, SIEM, and Linux hardening.
- **Academic Goal**: To deepen knowledge in ethical hacking and infrastructure security while contributing to real-world security projects through internships or junior roles.

EXPERIENCE

- **HRS Tunisia** — Tunis, Tunisia
  Web Developer (End-of-Study Project Internship) — *Feb 2024 – Apr 2024*
  - **Development of X-CHANGE Web App**: Enabling real-time consultation of exchange rates from Tunisian banks.
  - **Online Currency Conversion**: Feature to calculate exchange rates dynamically.
  - **Rate Negotiation System**: Allowing users to post currency sale requests and receive offers from banks.

RELEVANT ACADEMIC PROJECTS

- **Netspace Pentesting Lab**: Conducted end-to-end penetration test on the "Netspace" vulnerable machine using reconnaissance, exploitation, and post-exploitation techniques.
- **HealthUnity**: Dynamic website for appointment scheduling and paramedical product management. (2023)
- **Club World Cup 2025**: Application listing teams and players in the 2025 Club World Cup. (2024)
